*(from the AKC website)*

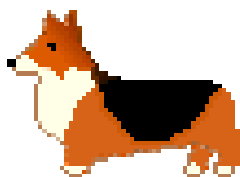

Jill Jones first became involved in AKC tracking in 1974 with an Elkhound. He passed his TD in 1975, becoming the first UDT of the breed. Since then she has put a total of 15 TD & 8 TDX titles on various dogs, including Labrador Retrievers, Pembroke Welsh Corgis, a Greyhound and a Finnish Spitz. Jill has been a tracking judge since 1984, as well as an obedience judge since 1977. She currently competes in obedience, rally, tracking and agility with her Corgis and a 'Career Change' Labrador from Guide Dogs for the Blind. Jill's seminars are very informative and fun. If you are interested in learning more about the sport of AKC tracking, and want to have fun with your dog, please plan on attending.

With a keen sense of smell –100,000 times stronger than humans – dogs are often used to find lost people and animals, drugs, avalanche and disaster victims, and even to detect cancer. AKC Tracking is a canine sport that demonstrates a dog's natural ability to recognize and follow a scent and is the foundation of canine search and rescue work. Unlike obedience and agility trials where dogs respond to the owner's commands, in tracking a dog is completely in charge, for only he knows how to use his nose to find and follow the track.
